Important Notice: Students who declare one or more emphasis will receive one diploma upon graduation. The name of the degree program will appear on the diploma and the emphases earned will be listed on the graduate's transcript. Students may not add an additional emphasis once the degree is conferred. After the degree is conferred, students cannot return to earn another emphasis in that degree. However, students are welcome to return and take classes required for that emphasis to enhance their resume for employment purposes

Common Career Pathway: The NRMP curriculum encourages and follows a regional approach to solving problems and developing strategies through working in cooperation with the local agencies, including working with non-governmental organizations (NGOs), as well as individuals toward producing effective management of the nation's coral reefs, fisheries, marine biotechnology, ocean resources, and other natural/environmental related resources.
