Findings for Capacity Development Evaluation (Informal Interview)

Summary of Findings: Programming did not happen due to the transition from virtual platform to face-to-face. Partnering organizations priorities shifted due to COVID. We hope to revisit this in the next fiscal year.

Results: Acceptable Target Achievement: Not Met; Ideal Target Achievement: Moving Away

Recommendations: Revisit in next fiscal year by conducting stakeholders meeting.

Reflections/Notes: None at this time.

Findings for Capacity Development Evaluation (post pre/post survey)

Summary of Findings: After attending camp, 71% of campers, ages 7-14, reported having the confidence to speak in front of groups.
After attending camp, 61% of camp counselors, ages 15-19, reported having the confidence to speak in front of other groups.

Results:
Acceptable Target Achievement: Exceeded; Ideal Target Achievement: Exceeded

Recommendations:
Creating year-round programming to engage youth in activities that will increase their confidence level in leading a project, speaking in front of others, and leading a group of their peers. Additionally, we will continue to work with partnering agencies to identify other forms of programs that will help aid in this measure’s efforts.

Reflections/Notes:
Although the summer camp was one week long, there is evidence of growth among camp participants. However, had it been longer, we would have seen a significant increase in capacity. Parents expressed their interest in having the duration of the summer program extended.

Findings for Capacity Development Evaluation (post pre/post survey)

**Summary of Findings:**
After attending camp, 94% of campers, ages 7-14, reported being able to work with others to solve problems. Additionally, they were able to enhance their social skills, as quoted by this parent: “Yes. My children were able to socialize and develop social skills -- some of which were lost during the pandemic.”

After attending camp, 71% of camp counselors, ages 15-19, reported being able to work with others to solve problems.

After attending camp, 100% of camp counselors, ages 15-19, reported wanting to help others.

After attending camp, 100% of camp counselors, ages 15-19, reported being able to take responsibility for their actions.

*Note: There were a few Camp Counselors involved in multiple camp sessions across Saipan, Tinian, and Rota which may account for the heightened capacity results.

Results: Acceptable Target Achievement: Exceeded; Ideal Target Achievement: Exceeded

Recommendations: Work with OIE to identify measurement tools to minimize the possibility of duplicating results. Perhaps request OIE to conduct data collection training for FCYD Team. Creating mechanisms to ensure completion of participant surveys.

Reflections/Notes: As a result of the exposure to 4-H Camp Maga'lahi, young leaders were able to use that motivation to expand 4-H Clubs across the high schools and college. In addition, they were able to create three CNMI-wide special interest clubs.

**Summary of Findings:** After attending 4-H Camp Counselor Trainings, 100% of camp counselors, ages 15-19, were able to apply newly gained skills by facilitating the 2021 4-H Camp Maga'lahi on Saipan, Tinian, and Rota.

After attending 4-H Camp Counselor “Train-the-trainer” Workshop, 100% of the 4-H Overall Lead Camp Counselors, ages 15-19, were able to facilitate and train camp counselors on Saipan, Tinian, and Rota.

**Results:** Acceptable Target Achievement: Exceeded; Ideal Target Achievement: Exceeded
**Recommendations:**
Continue to provide series of trainings and "Train-the-Trainer" Workshops to expand skillsets in facilitating program activities. This has helped equipped all of our participants with the necessary skills to successfully facilitate and implement programs. Sharing a quote from one of the 4-H Camp Counselors: “I noticed my self-motivation improve and built up my critical thinking skills. I also learned just how much work it takes to be a leader.”

**Reflections/Notes:**
This is definitely an opportunity that we will continue to afford the youth.

**Summary of Findings:**
After attending 4-H Overall Lead/House Lead Camp Counselor Trainings, 100% of the overall leads/house lead camp counselors, ages 15-19, were able to apply newly gained skills by mentoring their peers and younger youth.

**Results:**
Acceptable Target Achievement: Exceeded; Ideal Target Achievement: Exceeded

**Recommendations:**
Moving forward we will create an application process for interested youth, ages 15-19, to apply for the 4-H Camp Maga'lahi Overall Leads and House Leads positions. This will include a formal interview process, mandatory orientation, and attending professional development workshop.

**Reflections/Notes:**
This opportunity to apply for these positions will enhance their skillsets, expand their network, and afford them the opportunity to represent the CNMI at a State and National level.
Overall Recommendations

PLO 1: Need to revisit and work on communicating with stakeholders as focuses may have shifted post lockdown.

PLO 2: Continue to expand on the different programs and activities to help further enhance and develop the capacities of the youth participants.

Continue to explore inter-island youth connections opportunities by expanding the number of 4-H delegates beyond the summer program. This will be beneficial as we continue to bridge the gap between the three islands by building social capital, increase cultural competencies of the uniqueness of each island, and thereby creating ambassadors that can speak to the CNMI.

Overall Reflection

Despite the COVID-19 pandemic, the results exceeded our expectations. This shows the flexibility of the CNMI community and the FCYD Team to continue programming amongst the various challenges. Additionally, it is evident that the youth have so much potential and skills that can help contribute toward impacting the community in a meaningful way. We will continue to open doors to immerse the youth into the various leadership roles through internships and career exploration to prepare them for the workforce. This was a great learning experience for the FCYD Team.
